Harbor Club, Curio Collection by Hilton in the beautiful Rodney Bay, offers a unique Caribbean resort experience for relaxation, celebration, and adventure. Feel at home with 115 cabins and suites designed to bring the maritime setting indoors. Each cabin is well-appointed with understated luxurious décor featuring nautical-inspired design and premium amenities designed for an elevated and relaxing stay.

Curio - A Collection by Hilton is Hilton's latest brand and is currently being developed as the hotel chain selects distinctive four and five star hotels that offer travellers local discovery and authentic experiences in key markets. Just as the word "curio" can refer to something of interest, unique or even rare, each Curio hotel will be different from the next, with individuality being a common thread, along with the quiet reassurance of the Hilton name behind every location.
